Sheen Level: N/A
Solid Content: 30%
VOC: does not exceed 275 grams per liter
Percent Cured: After 24 Hours: 70%
Fully Cured: 1 week
Shelf Life: 1 year
Storage and Working Temperature: 50° to 77°
Packaging: 5 gallon pail & 1 gallon plastic bottle
Clean Up: Water

Application Characteristics
Coverage Rate: 450 - 500 square feet per gallon
Leveling: Excellent
Defoaming: Excellent
Dry Time: 2 – 3 hours
Application Tools: T-bar, cut-n-pad, roller, brush
Pot Life: N/A, no hardener or crosslinker should be added
Clarity: Milky white wet, dries with slight amber color
ADVANTAGE COATINGS TECHNOLOGIES: PRO SPORT CLEAN

Advantage Coatings Tech products are produced using the highest quality ingredients. Our formulations are designed to provide exceptional performance and durability. Advantage waterborne formulations meet or exceed all state and federal clean air quality standards. Sport Tone Sealer contains less than 275 grams per liter- 2.1 lbs per gallon VOC (volatile organic compound).

Before using read all directions and Safety Data Sheets (SDS). For Professional use only.
For technical advice call Advantage Coatings Tech: 303-499-1310

USE DIRECTLY FROM CONCENTRATE. DO NOT DILUTE!

Pro Sport Clean is a wood floor sealer.

New Floors and Sanding – 4 or 5 coat finish system

1. Sand and prepare floor using MFMA accepted practices.
2. Make your final cut with 80-100-grit paper. Screen with 80-100-grit screen.
3. Vacuum thoroughly.
4. If tacking is desired, only use water.
5. Apply one coat of Sport Tone Sealer with T Bar (see Sport Tone Sealer back label or spec sheet for directions). Abrading Sport Tone is not necessary if next coating is applied within 48 hours.
6. Apply first coat of Defense or And One finishes.
7. Abrade Defense / And One with a maroon pad and apply game lines and logos.
8. Properly abrade games lines and logos and also the second coat of Defense / And One if floor has sat longer than 48 hours.
9. Apply final two coats of Defense / And One.

Finish Application

Follow Defense and or And One application instructions.

Coverage rates & Dry times

Light weight t-bar 500 sq ft per gallon. Dry times are 2 to 4 hours depending on conditions. Ideal drying conditions, 65-80° F, and 30-50% relative humidity. Higher humidity will slow dry times.

Applying finish

Pour a 5” bead of finish along the starting wall. Apply finish by going with the boards, and always keep a wet edge. Using the snow plow method work finish across the entire floor. To prevent lapping and missed areas, always keep that wet edge.

Second Coat & Intercoat Abrasion

It is not necessary to abrade in between coats of Advantage Coatings unless 48 hours has passed since the last coat was applied. If 48 hours has passed abrade with a maroon pad (320 grit). Then vacuum and tack floor before applying second coat.

Curing

100% cure is about 7 days in ideal conditions—80% after 1 day and 90% after 3 days.

Clean Up

Clean all applicator tools with water and store in an air tight container.

Maintainance

Always use Advantage’s Pro Sport Clean. Visit advantagecoatingstech.com to down load the latest maintenance procedures.

Stability and Storage

One year shelf life on unopened container. Store in a climate controlled environment at room temperature. Do not freeze. Nonflammable.
